LEARNING RESOURCE CENTER
ROWAN TECHNICAL INSTITUTE
POST OFFICE BOX 1595
SALISBURY, NORTH CAROLINA 28144

A WORTHWHILE YEAR

What constitutes a worthwhile year?

Must every single day

Be one that's extra pleasant

As it passes on its way?

Must every cloud drift right on by?

Must every care be light

And every little hope or plan

Work out exactly right?

Oh no—a year can still be fine

Though troubles take their turn

For after all what really counts

Is that we live and learn . . .

And when we've done our level best

As each month will appear

Why, then we've got a right to say

We've had a worthwhile year!

Rowan Technical Institute
Salisbury, North Carolina

THROUGH THE YEARS

What do I like to remember?
Things that are special to me—
Favorite outings, favorite folks,
A school, a spectacular tree/ . . .
A joy that appeared out of nowhere,
A problem I solved alone
And those friendships I'll always consider
The only real treasures I own.

Ba La H'
Ra Ac

Future Students!

Alice has the munchies

Ain't I cute!

Tell me one more time!

Mind your own business.

Mr. Lowman leads his gang back to class

Party Time!

It's always nice to have a man around.

Foosball at it's best!

8 o'clock classes are murder.

If only they would give credit hours for pinball.

Murder's Row!

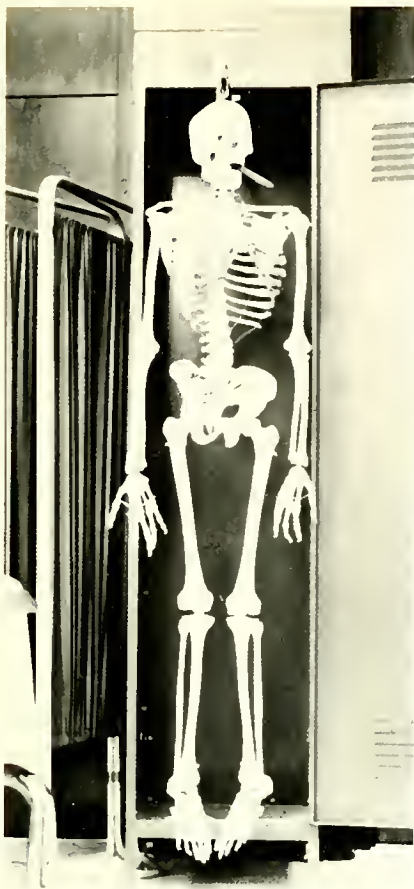

If I have to eat one more Macke burger . . .

Quarter-Time!

Hurry, she's heavy!

Lovers and other strangers

What do you mean you're lost!

I think we got caught!

Bobby, you mean you really study!

We've got to stop meeting like this.

What do you mean I've got it backwards?

Love is alive and well at RTI

Lies! Lies! Lies!

Have I got x's or o's?

Day in Physics = $\frac{BRU}{SG} \times \frac{PGL}{HIR} \times \frac{L}{PT}$

Student Government Association

Alice Devendorf—President

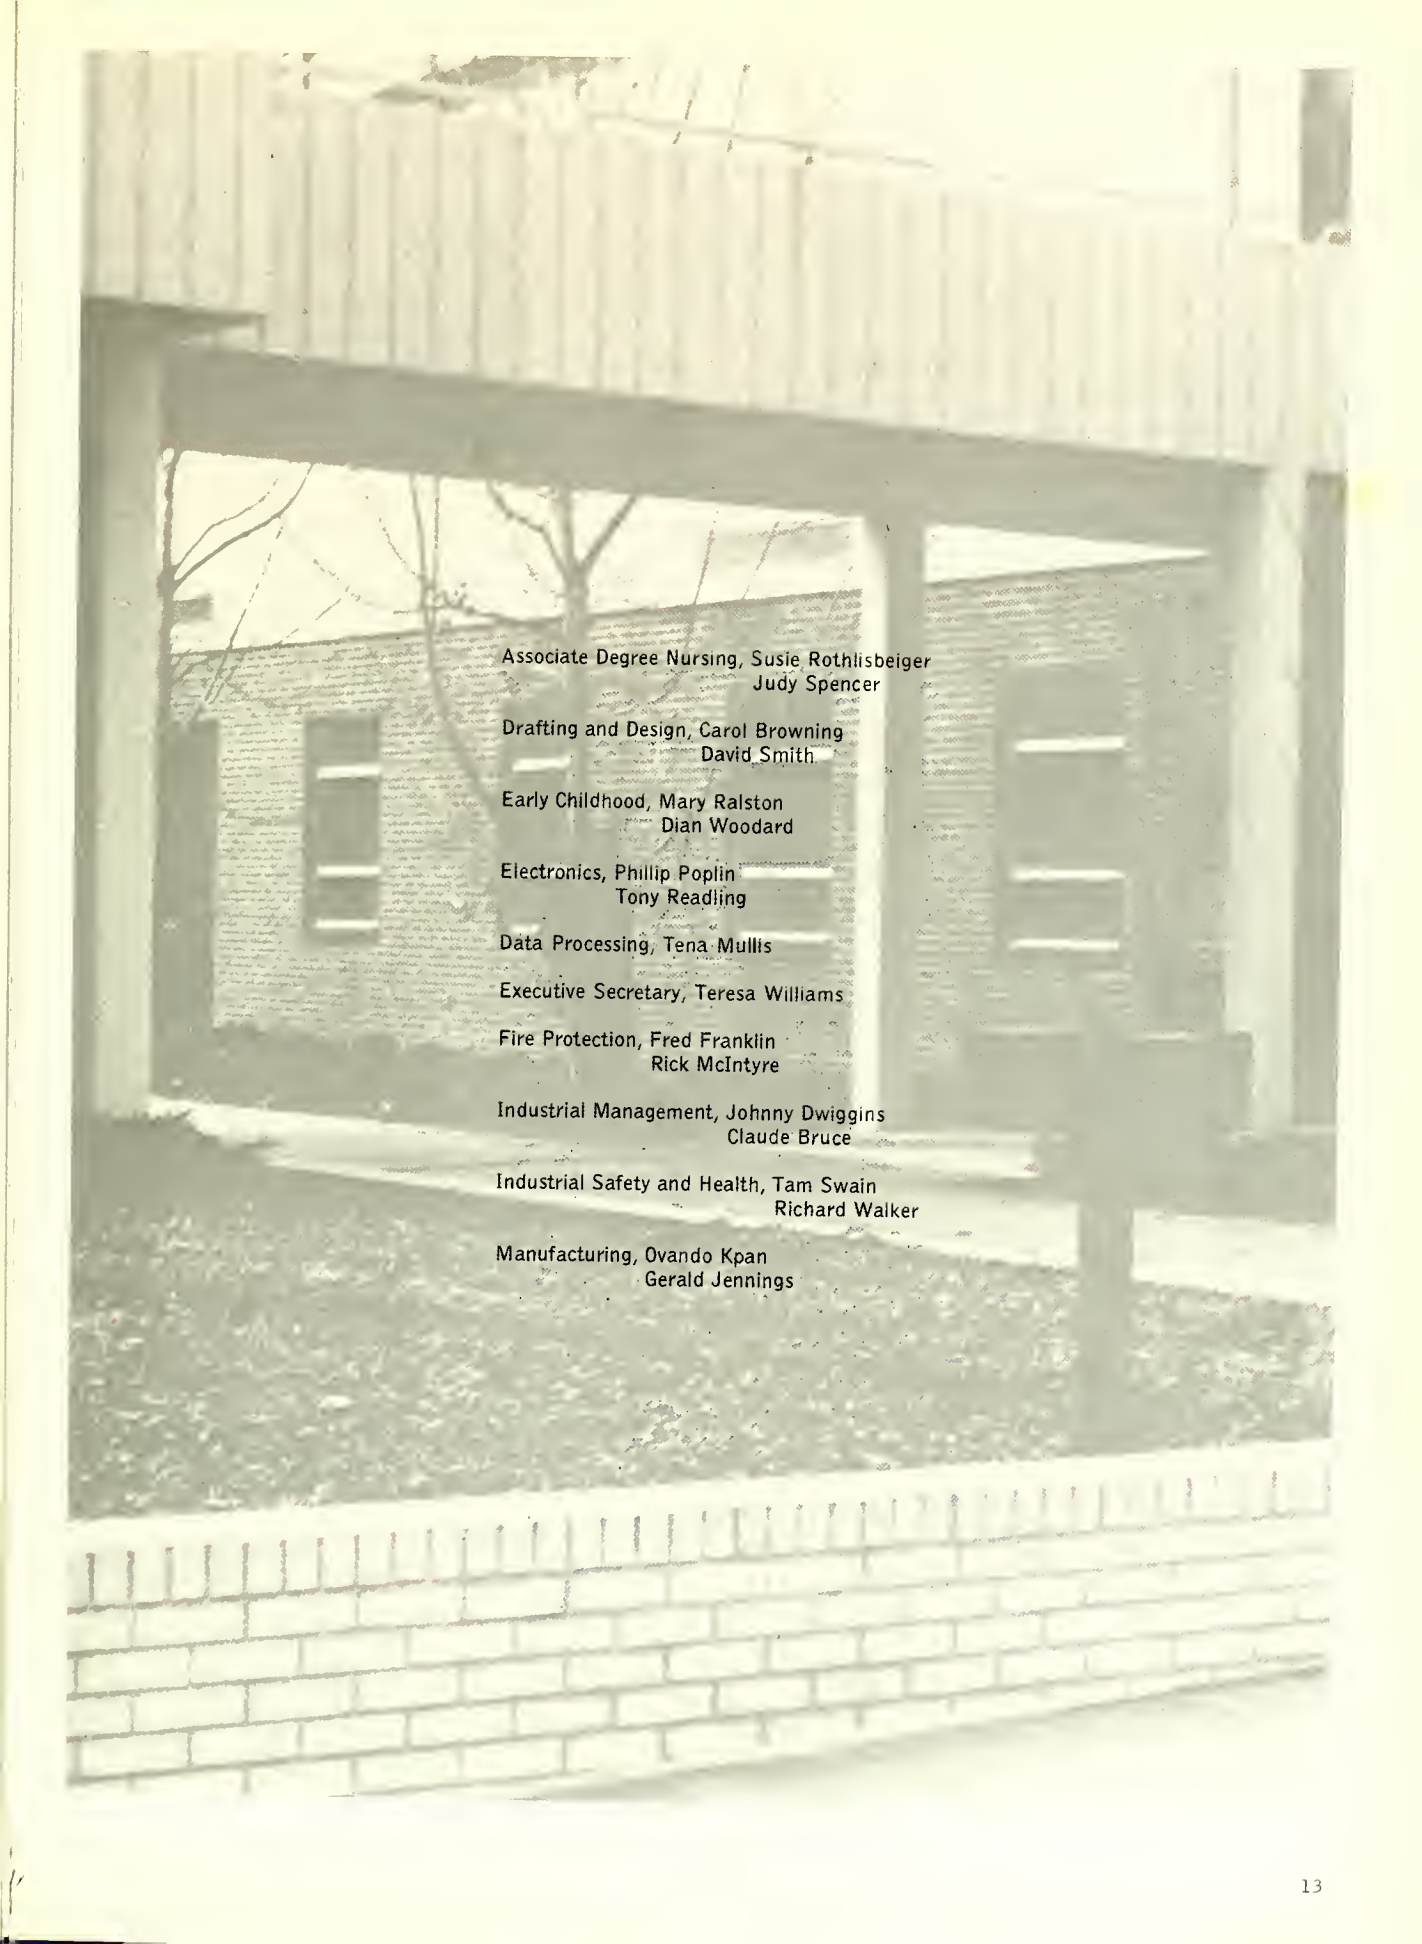

Andrea Parker—Secretary

Brad Gryder—V. President

Lee Head—Treasurer

A photograph of a building with a large window and a brick wall in the foreground. The building has a corrugated metal roof and a brick wall. The window is large and rectangular, with a dark frame. The brick wall in the foreground is made of light-colored bricks. The text is overlaid on the image.

LET'S MAKE EACH DAY COUNT

Each day, let's be better
In some way that really counts
Let's be nicer, let's be smarter
Let's spread joy in large amounts ...
Let's be strong when doubts confound us
Let's be brave when fears abound
Let's not quit a cause or project
Till we've made a hundred fold
Let's speak less of people's failings
And instead let's try to dwell
On their kindness
And their accomplishments, as well ...
Let's make each day
A day that we can live each vow
To keep abreast of it
It's sure to give our days
Added meaning while they're here
To review whatever progress
We've come up with through the year!

VALENTINE DANCE

Hey-Day

Dedication

Glenda Williams

Hi, May I help you?

With a warm smile and a sincere desire to be of service to each and every student, she has totally fulfilled the idea of "Student Services". As the receptionist in that office, she is always ready to answer your questions on Financial Aid, give out general information, or listen to what ails you!

Because of the warmth and professionalism she brings to her position, we the Spectrum Staff of 1978, proudly dedicate the 1978 Spectrum to Glenda Williams.

WHAT MADE 90 YEARS OF GROWTH POSSIBLE?

Founded in the grim, reconstruction days of 1887, why did Cannon Mills succeed when so many other of those early textile companies failed?

How did Cannon grow and expand for nine decades in one of the world's most fiercely competitive businesses — textile manufacturing and merchandising?

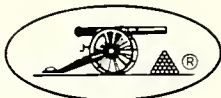

Why did it become a leader in the U.S. textile industry, spanning such a long reach of American history — World War I, the Roaring Twenties, the Great Depression, World War II, the Korean Conflict, the Vietnam War, and space exploration?

There are many answers to all these

questions but the most important is people. Cannon people. Men and women ... young and old ... different races and origins ... generations of people working together with uncommon dedication, skill and loyalty.

Cannon people are the professionals with all the skills and talents necessary to operate a modern, growing textile company. They — and we — are proud to be a part of America's first great industry — textiles, as old as man and as new and exciting as tomorrow.

There are many career opportunities for ambitious young people looking for a challenge. Cannon Mills is, of course, an Equal Opportunity Employer.
